Choose the package that matches where your business is going.

Each tier is cumulative — Growth includes everything in Starter Lite, and Scale-Premium includes everything in Growth. Pick by the outcome you need next, not by feature count.

Starter Lite

Close the books with confidence

Replace spreadsheets and entry-level accounting and run a clean, audit-ready ledger in 10 working days.

Best for: Finance Manager / Controller at a 5—20 user services or trading SME adopting its first ERP.

19 capabilities

Growth

Run trade operations without stockouts

Multi-location distribution, importing and demand planning on one connected system.

Best for: Operations / Supply Chain Manager or COO at a growing distributor or importer (20—75 users).

37 capabilities

Scale-Premium

Run the whole enterprise

Make, service or deliver projects — with consolidation, costing and Copilot built in.

Best for: CFO / CIO / GM at a manufacturer, field-service or project-based, multi-entity organisation.

73 capabilities

Full feature comparison

Accurate as of BC 2026 Wave 1. BC licensing (Essentials / Premium) is sold separately, per user. Payroll via AppSource / Dataverse add-on.
Packages reflect implementation scope, not Microsoft license SKUs. Tiers are cumulative: Growth includes Starter Lite; Scale-Premium includes Growth.
Per-user subscription fees are set by Microsoft in US dollars, so peso amounts are subject to change with exchange-rate movements.
